The Lee Line Company will put their new purchase, the Steamer Rees Lee, in the St. Louis-Memphis trade, leaving Memphis on her initial trip Friday and arriving at Hickman, Saturday, March 12th.

The Rees Lee was formerly the Steamer S. S. Brown, which was built by the J. H. Sons Co., Pittsburg, at a cost of \$125,000, for the Memphis and Vicksburg Packet Co., to be operated between Memphis and Vicks-

The steamer was named after Capt. Sam S. Brown, who was then president of the Memphis and Vicksburg Packet Company. After his death, the boat became the property of his estate, and was sold by the executors of his estate to the Lee Line people. The Rees Lee is one of the best known and fastest steamers plying the Mississippi, having a steel hull, non-sinkable, 225 feet long and 50 feet wide, with a carrying capacity of 1,200 tons, and is equipped with non-condensing engines of the most modern type.

INVOLVES \$500,000,000 - BILL INTRODUCED IN SENATE.

Will Advance Civilization of United States, Relieve Suffering and Disseminate Knowledge.

Washington .- A bill introduced in the regular course of business in the senate Wednesday by Senator Gallinger of New Hampshire revealed the most stupendous work of philanthrophy in the history of the world.

The author of the bill is John D. Rockefeller and it involves the absolute gift from the great fortune which Standard Oil has built up for him of at least \$500,000,000 and perhaps more. The bill of incorporation names it the Rockefeller Foundation.

In the early summer of 1906 Mr. Rock efeller sat on a great stone bench in the park of the chateau at Compiegne, in France-a bench, by the way, on which Napoleon Bonaparte had frequently sat strike is but a lead for the abused and mused away hours—and calmly dis-cussed the criticism and abuse that had been heaped upon him at home in Amer-

Such was the assertion made by Dr. Thomas F. Harrington, director of school hygiene of Boston, in an adderss Wednesday at a meeting of the department of superintendents, held in connection with the National Education Association

"Our entire nation seems to be suffering from a certain widespread nervous irritability, and as the school child is a part of the nation, he must necessarily partake of the influence surrounding him," continued the speaker.

The speaker said that medical supervision offers the greatest promise in the efforts to conserve the health of teachers and pupils.

Washington.-The construction of the two dreadnaughts of 27,000 tons each, of design similar to the two battleships now building, was authorized Tuesday by the house committee on naval affairs. The bill to be presented in the house

by Chairman Foss will carry an appropriation for each of these battleships of mated, that can be expended in one year The full construction program for

1911, decided on by the committee, includes, besides the two battleships: Four submarines, at an estimated cost of about \$500,000 each.

For the construction of these, a total of \$800,000 is appropriated.

Two fleet colliers, estimated cost \$1,-

The total authorization for new construction in 1911 is about \$26,000,000 The appropriations made aggregate \$15, 744,112. The bill will carry about \$114, 000,000 for maintenance of the navy establishment, making the total navy appropriation for 1911 about \$130,000,000 as compared with \$135,000,000 for 1910.

CAN NOT TAX POLICY LOANS

New York Life Co. Washington. - That the so-called "policy loans" or "premium line note

loans" of insurance companies are not liable to local taxation was decided Monday by the Supreme Court of the United States. The question came up in the case of the parish of Orleans and the city of New Orleans against the New York Life Insurance Company. The local tax authorities levied a tax on the agreements between insurance companies and their policyholders, under which the companies advanced to their holders the reserve value of their policies. In the case of the New York Life Insurance Company it was sought to tax agreements that totaled \$568,900. The company brought the suit in the United States Circuit Court for the Eastern District of Louisiana to enjoin the collection of the tax. That court held that the policy loans were not loans in the ordinary sense of the term, but rather partial and anticipated settlements by the company of its ultimate liability under the policies to its policy-

Cleveland, O .- Hundreds of people have been driven from their homes at Fremont and other points throughout Northern Ohlo by the floods which after a 30-hour steady rain, reached their climax Sunday. The damage to property will run into many thousands dollars, and if the situation is not relieved by a cold snap or a cessation of the rain, it is freely predicted that extreme suffering and destitution will follow in the next few days.

At Youngstown, Ohio, two of the biggest steel plants in the city are threat ened by the rising waters of the Mahoning river, along the entire valley of which the water has spread over the lowlands, driving the farmers from their homes

The Sandusky river is five feet above the danger line at Bucyrus, and an im mense ice gorge has formed in the heart of the city.

The most serious conditions are re ported from Fremont, where half the town is under water, and the stores have been boarded up by the merchants.

LAW IS ABOVE GOVERNMENT

Senators Not Too Exalted to Be Sued Says Justice Wright.

Washington.-Justice Wright, in the Supreme Court of the District of Columbia, Monday decided that the court acted entirely within its authority when it issued the writ of mandamus ordering the joint committee on printing of Congress to show cause why it should not consider the bid of the Valley Paper Company of Holyoke, Mass.

In a decision which he took two hours to read, Justice Wright declared that to have refused to issue the mandamus because some of the persons sued occu pied the exalted position of senators would have been to betray the law. No man in this country is so high that he is higher than the law," declared Justice Wright. "Even the government of the United States is less than the law. What is there in the exacted position of a senator which prevents any citizen from laying what he believes to be an injury before the bar of justice?"

Whether the senators appear in court at this stage of the proceedings the jus tice declared is immaterial.

The jurisdiction of the court, Justice Wright declared, was generally recog nized, commonly understood and long exercised, having been conferred by various acts of Congress. Referring to the absence of the senators who deelined to appear in court or be represented, the court said:

"The progress of the affairs of jus tice in such cases is neither to be avoided nor obstructed by the absence of re spondents, nor does any part of its administration depend upon their pres-

New Orleans, La.-The Textile Mills Corporation, capitalized at \$5,000,000, and which owns and operates the cotton mills at Wesson, Miss., and the big Ma-ginnis and Lane mills in New Orleans, was placed in the hands of receivers Monday in the Federal court on the petition of the General Electric Company of New York, which has a claim of \$4, 497.05. The allegations in the petition are that the concern has mortgages on its properties in Louisiana and Mississippi, has a floating debt of \$50,000 and will not be able to meet the March dividends on its bonds. That the concern has been in financial difficulty for two months, for lack of working capital, the stringency of the money, the low price of manufactured goods, and the fluctuating price of raw cotton have contributed to the predicament.

DRYS" HOPE TO SQUEEZE IT THROUGH SENATE, BUT "WETS" ARE NOT IDLE.

SCHOOL ACT IS ALSO PASSED

Provides that Permission Must Be Obtained from Voters of District in Which Institution is to Be Lo-

Frankfort, Ky.-With a "hip and a to 6. hurrah," the county unit bill passed the house by a vote of 63 to 28, and will be sent to the senate. The supporters of the bill have not the same hopes that it will pass the senate as it did the house. By parliamentary tactics, however, the bill may be put on its passage, and then it is likely that it will be passed, but the wets will not be idle.

The rules committee called from the orders of the day H. B. 347-J. W. Holland-To regulate the establishment of industrial schools. The bill provides that before any school, college or institution is established, permission to operate such an institution must be had by the legal voters in the precinct in which such institution is sought to be located. The provisions of this act do not apply to cities of the first, second, third or fourth class or to schools, colleges and institutions already in existence. The bill was passed by a vote of 63 to 7. This bill will prevent the establishment of the "Lincoln Institute" in Shelby county if it passes the senate.

In the house, as a minority report from the committee on suffrage and elections, Col. R. D. Hunter, of Winchester, submitted a favorable report on the Graves bill, granting women limited suffrage in school matters. The minority report was defeated by a vote of 43 to 37 in effort to substitute it for the majority report.

To Pay State's Bills.

Representative Carter offered a resolution, seconded by Holland, that House Bill 469, originated by the rules committee, authorizing the issuance of interest-bearing warrants to pay from the orders of the day and placed offered by Carter providing a flat rate of interest of 5 per cent, saying this was to prevent warrants being split was adopted. The bill was passed by a vote of 63 to 7.

In the senate the bill providing for an amendment to the present libel law was passed, creating practically a new statute and protecting the papers or publications by a retraction. Willson Blamed for Lack of Funds. Arraignment of Gov. Willson

'squandering" the state's money cent municipal election in favor of former Mayor Grinstead, are two fea- bidden by the constitution." tures of the report submitted by Senator E. M. Taylor, chairman of the committee on military affairs. The report of the committee says it was embarrassed by the failure of the state examiner to have inspected the department of adjutant general. The committee began by setting out that \$389,000 has been spent on the state guard in two years, \$189,000 of it for active militia, practically for the "night rider" trouble. One item was \$10,000 to a Hopkinsville liveryman for horse hire. It sets out that the militia was sent into 34 counties, and, by admission of Gov. Willson, into practically all of them without request of the local authorities. The committee declares this action of the governor to be a "flagrant violation" of the constitution and the bill of rights, saying that he sent troops in some instances without the necessity of it. and without ever ascertaining the need therefor from the civil authorities. Condemning what it termed the 'night rider outrages," the committee says it must more strongly condemn the acts of the governor for violating the plain letter of the law. The committee set out at great length the "raid" on a Woodman of the World lodge at Wallonia, Trigg county, by a detail of soldiers seeking alleged night riders, and of the alleged deseeration of Masonic property in that raid. The committee recites that the adjutant general declined to go into this matter, saying he was not on the defensive. The committee expresses the opinion that, had the \$189,000 not been spent for active militia by the governor, the treasury would not be so depleted.

Lexington, Ky .- It is expected that 1,000,000 will be distributed at once to claimants against the Southern Mutual Investment Co. as a result of the confirmation of the report of Receiver C. Senator Mark Ryan, of Louisville, saw his bill making the members of the Louisville board of waterworks eligible to succeed themselves in office enacted 26 to 0. It also provides that the maximum amount of refunding bonds may be increased by \$500,000. Senator Catlett's bill to pay jurors summoned for service, but not accepted, was passed, 25 to 0.

The bill of Senator Thomas providing for a board of forestry and appropriating \$20,000 to establish the department, was passed practically without opposition.

Senator Combs offered a bill appropriating not exceeding \$30,600 to pay the "Taylor soldiers" who performed service in Frankfort during the 1900 session of the general assembly.

Gov. Willson sent to the senate his appointment of W. G. Munn, of Louisville, commissioner for the State Institution for the Blind, to succeed the late Daniel Mills.

Governor Favors Income Tax. In favoring a state income tax Gov.

Willson says: "We collect taxes as the contribution of each taxpayer for the protection and care of the state. and those who have incomes have something to contribute from. The best way is for each one who has an income to give his part or tithe. While they who have property, but bury the talent in the ground and make no income, should be pushed to work and make an income by taxing their idle property and buried talents, minate sentence, passed by a vote of the bulk of taxes will always be paid out of our incomes, no matter on what property laid. The state government needs the money. The federal government, which has already the power under which it collects over \$1,000,-000,000 every term of congress and which collects from Kentucky for the claims against the state, be taken federal government millions of dollars more every year than the state upon its passage. An amendment was collects for its government, does not need more. Why not, then, enact a Kentucky income tax now, before congress does it, and pay our debts ininto small amounts, which amendment stead of borrowing money or standing off the creditors? Why not take advantage of the wave of acclamation for income taxation which prevails? Will it come any easier for the federal government than for our own state? No one ought to oppose giving our country power to levy an income tax if needed to save it in war or other great emergency, but we are on a national income tax 'joy-ride' for the war on night riders, federal government whether it needs and for the alleged breaking up it or not and no matter what we pay of the First regiment in Louisville, already. Chinn After Brown's Scalp. Asserting that he never gives up a fight, Col. Jack P. Chinn, of Harrodsburg, a member of the house of representatives, who is causing the inestigation of the Frankfort penitentiary, called Harvey McCutcheon, chairman of the prison board, to one side in the lobby of the Capital hotel, and stated that he intended to demand the legislature either to fire Col. Eli H. Brown, Jr., a member of the board, or that the legislature investigate him, and if his charges are incorrect or false, to expel him from that body. Col. Chinn had just made the statement that every warden and deputy warden was made to hand in his signed resignation before he took his oath of office, so that he could be discharged without ceremony.

Gov. Willson submitted to the assembly a message recommending the issuance of 4 per cent bonds for \$500,-000, the proceeds to be used for paying outstanding debts and past due appropriations, and gifts to the schools and other beneficiaries. He also recommended the issuance of interest bearing warrants at a rate of not exceeding 4 per cent for all unpaid obligations and gifts to the state, which shall not be paid out of the current recipts or proceeds of sales of the bonds.

Common Sense

Leads the most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle-wrappers and attest its correctness under oath, are daily growing in favor. No Secrets. No Deception.

The composition of Dr. Pierce's medicines is open to everybody, Dr. Pierce being desirous of having the search light of investigation turned fully upon

his formulæ, being confident that the better the composition of these medicines is known the more will their great curative merits be recognized.

Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs.

Examine the formula on their bottle-wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-on-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption.

Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay, or non-professional, testimonials although the latter are received by thousands.

Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood.

PRES S G LATTA HERE.

Pres. S. G. Latta, of the Chicago,

Mr. Latta spent an hour in the Courier office and went over the plans of the company with a representative of this paper. He expects to build right on into Hickman if they can get the proper encouragement. At present there is only ten miles more of the road to contract to bring it into this city, and if what Mr. Latta considers a reasonable bonus, can be raised, there will be lit tle delay in filling this gap. The amount of this bonus and other particulars we will not mention this

Mr. Latta will be here next Monday, and Monday afternoon there will be a meeting at the opera house for the purpose of discussing the matter in detail. All parties interested (and we hope this includes every business man in town) are requested to attend this meeting. Hickman needs the road and the road needs Hickman. Make your arrangements to be present.

IN AGONY WITH ECZEMA

"No tongue can tell how I suffered for five years with itching and bleeding eczema, until I was cured by the Cuticura Remedies, and I am so grateful I want the world to know, for what helped me will help others. My body and face were covered with sores. One day it would seem to be better, and then break out again with the most terrible pain and itching. I have been sick several times, but never in my life did I experience such awful suffering as with this eczema. I had made up my mind that death was near at hand, and I longed for that time when I would be at rest. I had tried many different doctors and medicines without success, and my mother brought me the Cuticura Remedies, insisting that I try them. I began to feel better after the first bath with Cuticura Soap, and one application of Cuticura Ointment.

"I continued with the Cuticura Soap and Cuticura Ointment, and have taken four bottles of Cuticura Resolvent, and consider myself well. This was nine years ago and I have had no return of the trouble since. Any person having any doubt about this wonderful cure by the Cuticura Remedies can write to my address. Mrs. Altie Etson, 93 Inn Road, Battle Creek, Mich., Oct. 16, 1909."

become greatly exercised over the re cent meeting held by Mrs. Belmont at the Mount Olivet Baptist church, at which she took many negro women into her organization. It has caused many to speculate as to the possibility of enfranchising the negro women of the southern states. Many letters have been exchanged during the past week between the New York women and the suffragist workers in the south discussing the manner in which the colored women's vote can be eliminated 'if we get the vote."

'Yes," said Mrs. Ida Husted Harper, "It is true that the southern women wish to bar the colored woman from voting. But as the national association stands for universal suffrage at tion and they hope to convert many all times and in all places, we cannot statesmen by showing them that it is countenance this action of the southern women. Monk Chases Longworth Dinner Guests

F COL ROOSEVELT is having any more thrilling adventures in Africa than a number of distinguished persons had in the dining room of his daughter, Mrs. Nicholas Longworth, in Washington, they think he owes it to his family to come home at once.

According to the tidings brought to

the front by the society reporters, there was a monkey hunt at the Longworths that left the company duly impressed with the terrors of the jungle. It appears that Representative and Mrs. Longworth were giving a dinner in honor of Mr. and Mrs. Cornellus Vanderbilt of New York. Along toward the close of the dinner the talk drifted to animals, and Mrs. Longworth described two pet monkeys she recently acquired. The guests expressed a desire to see the animals and Mrs. Longworth had the cage carried into the dining room.

In some way the door of the cage home. became unfastened and one of the The beasts did not appreciate her efmonkeys escaped. tered at the company. The women shrieked and scrambled to their chairs, while the men fell over each other in trying to evolve masures of protection and at the same time capture the The monkey sluded the brave hunt-

ers with ease. It sprang from the chandelier to the sideboard, ran around the room three or four times, while the women and some of the men went rapidly out of the nearest doors. Then it vaulted into the plate rail, where it did a few stunts to the damage of much brie-a-brac. Finally It intrenched itself behind a jardiniere, where eventually it was captured. When the monkey was restored to

its cage and quiet had settled down over the dinner once more, Mrs. Bourke Cockran, who is visiting Gen. and Mrs. Clarence Edwards, expressed the opinion that there was something wrong with the construction of the nest provided for Mrs. Longworth's pets. She had been in the Philippines and

she thought she knew something about the building of homelike monkey nests. Cotton and soft grass were produced, and Mrs. Cockran proceeded to rearrange the monkey's

Enough Useful Animals to Destroy Man

ALL the useful animals in the world were to organize themselves for revolt against the cruelties of man they would outnumber any human army that could be brought against them, even if every man, woman and child marched from the four corners of the earth to enlist.

Financial Loss Through Tuberculosis.

Based on the census of 1900, it is estimated by the National Association for the Study and Prevention of Tuberculosis that nearly 100,000 children now in school will die of tuberculosis before they are 18 years of age, or that about 6,400 die annually from this disease. Estimating that on an average each child who dies of tuberculosis has had six years of schooling, the aggregate loss to the country in wasted education each year amounts to \$1,152,000. According to investigations made in New York, Boston and Stockholm, the percentage of children who are afflicted with tuberculosis is much larger than the death rate would

NOVEL ISSUE BEFORE COURT.

Burley Society Brings Suit to Settle Intricate Question.

Lexington, Ky .-- A process from the Fayette circuit court to enjoin the sale and delivery of a crop of tobacco grown by J. N. Wallace, on the farm of Dr. Frank Bryant, in Scott county, was served on Messrs. Wallace and Bryant and the officials of the Central Kentucky tobacco warehouse, at the Instigation of the Burley Tobacco soclety. The crop was grown "on shares," and Wallace pooled his half, while that of Dr. Bryant is unpooled. Dr. Bryant claims that his contract with Wallace, because of the fact that it is stipulated that the proceeds from the sale of the tobacco and not the tobacco itself is to be divided, annulled the contract made by Wallace with the Burley society. The society. however, holds that the contract between the landlord and the tenant does not prescribe the manner in which the tobacco is to be sold nor by whom, and that therefore the tenant has as much right as the landlord to determine the method of sale and to make the sale. The society asks the court to order that the tobacco be divided and the landlord and the tenant each be permitted to dispose of his its returned against the Latonia half as suits him. It is the first case of its kind to come up here.

BURDENS LIFTED FROM BAD BACKS

Weary is the back that bears the burden of kidney ills. There's no rest nor peace for the man or woman who has a bad back. The distress begins in early morning. You feel lame and not refreshed. It's hard to get out of bed. It hurts to stoop to tie your shoes. All day the ache keeps up. Any sudden movement sends sharp twinges through the back. It is torture to stoop or straighten. At night the sufferer retires to toss and twist and groan. Backache is kidney ache—a throbbing, dull aching in the kidneys. Plasters or liniments won't do. You must get at the cause, inside.

If it shows a cloudy or fleecy settling, or a layer of fine grains, like brick-dust, the kidneys are disordered.

NEVER ANY RETURN A Complete Cure of Kidney Trouble and Dropsy

Mrs. L. L. Babers, 1615 Terry St., Houston, Texas, says: "I hold a very high opinion of Doan's Kidney Pills and with good reason, for three years ago they cured me of kidney trouble that had clung to me for several years. There was a dropsical swelling of my feet and limbs in addition to other symptoms of kidney complaint, and although I used various remedies, I was not helped until I procured Doan's Kidney Pills. Two boxes of this preparation cured me and I have never had the slightest return of my trouble. I have recommended Doan's Kidney Pills to many people who have questioned me about them, and I know of several cases in which they have done the same good work."

50 Per Cent Better

"I have used less than one bottle of Cardui," writes Mrs. Gertrude Ward, of Rushville, Neb., "and am feeling fifty per cent better than when I began taking it.

"Before taking Cardui, I had suffered with female trouble, for eight years. My greatest trouble was irregularity. I also suffered with severe pains, every month, but now I am greatly improved and will recommend Cardui to all my suffering friends."

The Woman's Tonic

The rare medicinal herbs of Cardui are imported by the manufacturers direct from Europe and are not to be found in any other medicine. These ingredients are what give Cardui its superiority,

as a female medicine and tonic, over any other medicine For over 50 years Cardui has been the favorite woman's medicine. The ladies like it, because it is so easy to take, so gentle, so safe, so reliable in its results, and they have faith in its curative tonic powers, because of the thousands of other ladies it has helped. Try it today.

Unattractive Homes,

Winter has especial temptations in the fact that many homes are peculiarly unattractive. In the summer months the young man can sit out on the steps, or he can have a bouquet in the vase on the mantel, or the evenings being so short, soon after gaslight he wants to retire any how. But there are many parents who do not understand how to make the long winter evenings attractive to their children. It is amazing to us that so many old people do not understand young people. To heat some of these parents talk you would think they had never themselves been young and had been born with spectacles on. Oh, it is dolorous for young people to sit in the house from 7 to 11 o'clock at night and to hear parents groan about their allments and the nothingness of this The nothingness of this world? How dare you talk such blasphemy? It took God six days to make this world, and he has allowed 6,000 years to hang upon his holy heart, and this world has shown on you and blessed you and caressed you for these fifty or seventy years. and yet you dare talk about the nothingness of this world! Why, it is a magnificent world. We do not be lieve in the whole universe there is a world equal to it except it be heaven. PASSED BOGUS CHECKS.

Luther Dalton, the young white man of the Weaks who secured money from the Weaks and Franklin stores by means of bogus checks, was unable to secure bondsmen Friday and was Saturday carried to the county jail at Hickman. This is not the first time Dalon has been in trouble, but this is his first serious offense.

Several months ago, Dalton and two other young men were driving down the state line road when Joe Browder and family drove up behind them in an automobile. One of the young men fired his pistol in the direction of the auto and frightened Mrs. Browder and her children.

Dalton was indicted for some offense alleged to have been committed in the vicinity of Pierce Station but got out of this difficulty at a cost of some \$35.

Chief of Police Linton says he has a warrant for the young man, the charge being for carrying concealed weapons.

Dalton's people are poor but respectable, his father being the late Fate Dalton. Raised upon the farm. young Dalton was until a little over a year ago a hard working, honest boy. Bad habits and bad associates were his ruin.-Fulton Commercial -0-

We Optimist's Corner Daily Heips to Health

and Happiness By GEOFGE F. BUTLER, A. M., M. D.

Comparatively few people know how to husband and measure out energy of mind and body. Many people have the mistaken idea that they cannot do good work unless they nerve themselves up to it by a certain amount of excitement. It is no more necessary to get excited In order to work than It is to get drunk. The unconscious object, in either case, is to produce a certain amount of intoxication which will enable the worker to forget he is working. But he is making a double draught upon his powers which will tell a him sooner or later. Moreover, the excitement confuses judgment.

The symptoms dependent upon tattered nerves will not be permanently cured until the hygiene of the nervous system is attended to, its output of energy disciplined and regulated. A man accustomed to sprees of excitement, will develop unstable nerve centers, liable to irritation or explosion at any time. His sensations are abnormal, and not to be depended He has a continual consciousness of general physical and mental harassment and disorder. He is unhappy and restless. There is no truth in him. The normal standards of both mind and body are debauched. fluctuate and are capricious. Take it easy, and "keep cool!"

IMPORTED HUMAN HAIR.

Sarah Hamlin, clerk in a Detroit hair store, is confined in a hospital with a disease believed to be leprosy which she contracted from handling imported hair. Similar disquieting stories have come from other cities. It is certain that Miss Hamlin is afflicted with a peculiar and troublesome skin disease consisting of blotch es on her hands and scalp, and that ty Court of Robert L. Scearce et al, it comes from haudling imported human hair.

Nearly all the "false" hair from human heads which is used in this country comes from abroad. All parts of Europe and Asia Minor contribute. Blond hair comes from Northern Europe and the Caucausus, brown hair from Germany and Austria, and black hair from Italy, Turkey, Armenia and other southern and eastern countries. LADIES' TUCKED SHIRT WAIST.

Paris Pattern No. 2203, All Seams Allowed. - This jaunty tailor-made shirt waist, with a wide tuck over each shoulder, having a Gibson effect, is made of viyella flannel. The waist closes at the center-front under a double box-plait, and a small pocket ornaments the left front. The rather full sleeves are gathered into straight cuffs of the material, and the back is slightly gathered at the waist line. The high turn-down collar may be made of the material or a white linen collar may be worn. The model is suitable for any of the fancy woolen or linen shirtings, as well as for silk or madras. The pattern is in six sizes-32 ot 42 inches, bust measure. For 36 bust the waist requires 4% yards of material 20 inches wide, 3% yards of material 27 inches wide, 2% yards 36 inches wide, or 31/4 yards 42

To procure this pattern send 10 cents to "Pattern Department," of this paper. Write name and address plainly, and be sure to give size and number of pattern.

MONOPLANE GERMAN

Hans Grade, a Magdeburg Engineer, Surprises Enemies by Success with His Machine.

Bremen, Germany.-The people of this city have been much interested lately in the aeroplane invented by the Magdeburg engineer, Hans Grade. There were many who scoffed at the contrivance and predicted that would never rise above the earth. Grade, who had established his headquarters on the Vahr race track grounds in the suburbs of Bremen, continued quietly at work on his appa-

ratus and a few days ago it was announced that he would be ready to fly A great crowd gathered at the race course to witness what was feared would be a failure. Herr Grade, however, disappointed his enemies by actually flying, and this in the face of a srtong wind. His machine, a monoplane of somewhat novel construction, rose easily and sailed rapidly both with and against the wind, making the difficult turns gracefully. Those who had seen flights by the Frenchmen Bleriot and Latham declared that Grade surpassed them in the management of his machine.

Albert H. Wiggin Is Another New York Banker Who Interests Wall Street.

New York .- Albert Henry Wiggin, vice-president of the Chase National bank, is another one of the "younger men" of Wall street, who has been steadily forging to the head there during the last few years. It was during the panic of 1907 that he became especially prominent, for he was one of those who did not lose their heads when things looked blackest.

He was born at Medfield, Mass., February 21, 1868, and received his schooling at the Dwight school in Boston and the Boston English high school, from which he was graduated in 1885. From 1885 to 1891 he got his

B. SINNING THE DAY

APPETIZING DISHES FOR THE BREAKFAST TABLE.

Should Be No Real Difficulty in Making Cakes Light and Digestible-Some Recipes Valuable to the Housewife.

All breakfast cakes should be served piping hot on heated plates. They are best if made after the family is at table, for the least standing produces the leathery quality which makes them so indigestible. A hot cake, lightly made and deftly cooked, is as digestible as any breakfast food to

When cooked, a thick fron griddle must be used, and a good way to grease this is to smear it with a rag lightly touched with fresh butter. If grease of any sort is lavishly used, the cakes will be fried, of tough consistency, and without the delicate taste required. Maple strup, strained honey, and brown sugar are proper sweeteners for any cake, but these must be put on only after the delicacy has been buttered. Never turn the cake over until one side has browned. One turn is enough.

Buckwheat Cakes.-Take one-half cup of fine bread crumbs, two cups of scaided milk, one-half teaspoon of sait, one-quarter yeast cake, one-half cup of lukewarm water, one and threequarter cups of buckwheat flour, and one tablespoon of molasses. Pour milk over the crumbs and soak half an hour; add salt, yeast cake dissolved in lukewarm water, and then buckwheat sufficient to make a thin batter. Let this rise over night; in the morning stir well, and put in molasses and one-quarter teaspoon of soda, dissolved in the quantity of lukewarm water given, and cook as griddle cakes. Eat with maple strup.

Southern Waffles.-Take one and three-quarter cups of flour, three teaspoons of baking powder, one-half teaspoon of salt, one cup of milk, the yolks of two eggs, the whites of two eggs, and one tablespoon of melted butter. Mix and sift the dry ingredients; gradually add the milk, yolks of eggs well beaten, butter and whites of eggs whipped stiff, then cook in a round or square waffle iron. Strained honey is delicious with these.

Potato Soup.

Pare three potatoes of medium size, cut in quarters, drop them into enough salted water to cover, and cook quickly. While they are boiling, place one pint of milk in a double boiler with one whole ohion, and have the milk well heated by the time the potatoes are done. Drain the latter when cooked, mash them fine, and slowly add the hot milk, from which the onion has been removed. Season with celery salt, salt and white pepper or paprika, and add one tablespoonful of butter and one tablespoonful of flour dissolved in a little milk. Cook the soup for five minutes, pour it through soup strainer, return to the fire to heat, but not to boll, and serve. This soup may be made very rich by first placing two thoroughly beaten eggs in the tureen and pouring the hot liquid over them, stirring very rapidly meanwhile. The pouring must be done very slowly or the egg will cook

Homemade Yeast or Sponge Pare two medium sized potatoes and cook in boiling water. Drain and mash with one-quarter cup each of sugar and flour and a level teaspoon of salt. Pour on two cups of the water in which the potatoes are cooked, and which should be hot. Mix well, add two cups of cold water and one yeast cake soaked one hour. Cover and lot stand over night. Allow one-half of this sponge to an equal measure of milk, scalded and cooled; then follow the usual method of bread making. The other half of the sponge will keep in the ice chest or in a temperature above freezing for two or three days. The whole amount of sponge is suff-

Cut two raw young chickens into six or eight pieces of three-inch slices Chop two small onions into tiny bits. Stew them slightly, sprinkling them well with paprika. Do not stew the onions long enough to let them get brown. Add the slices of chicken, also the livers. Stir them well and cover the pot tightly. Let them stew for a quarter of an hour. Add a cupful of sour cream, a spoonful at a time, and add also a little water and bouillon. Let the meat continue to stew for another quarter of an hour.

MASONIC INCIDENTS.

During the war of 1812, Gen. Winchester was obliged to surrender for want of amunition. The battle had been desperately fought, an awful havoc had been made among the warriors of Tecumseh, and it was particularly stipulated among the conditions of surrender that the prisoners should be saved from the tomahawk and scalping knife, but no sooner had they laid down their arms than the indians began them and immediately an indiscriminate onslaught began. The American officers appealed in vain to the British general to enforce the terms of surrender. The boiling passions of the Indians were aroused to a terrific fury. Tecumseh sat upon a cannon and looked upon the dreadful carnage with fiendish glee. Suddenly he heard the cry of a Mason in distress; with the swiftness of a deer of his native forest he rushed among his warriors wielding his tomahawk high in the air, and with a clarion voice that rose above the warwhoop of his followers, he cried out: "Stop, warriors, shed no more of the white men's blood, for I have brothers among them." With the quickness of lightning the slaughter ceased and the terms which at first been entered into were strictly observed. Tecumseh was a Mason No other human power could have calmed the tornado of passion that had nerved the savages for the carnage. But for the talismanic power of Masonry in all probability every prisoner would have been massacred.

It is doubtful whether there has ever been devised by man a system that has the power over the human mind in the whole range of its passion that Masonry has so often, so instantaneously, so magically and so humanely exerted. The Masonic appeal of distress has never been made in vain to anyone who understood the Mystic Tie.

Even in our own Civil War, when brother and father and son fought under different flags, there was no termination of fraternal connection between Masonic bodies. Ever since that fearful struggle there have been Christian churches, professing the same creed divided on the question of slavery so that after nearly fifty years we still have Northern and Southern Methodists, Northern an Southern Baptists, Northern and Southern Presbyterians.

Masonry stood the test, knowing no North, no South, no East, no West, rising sublimely above all with a grandeur peculiarly its own. So may it ever be

Tis but an idle fancy
Such as will sometimes gleam
Above the necromancy
That bids one sit and dream.

I count the years as roses That bud and bloom and fade, And as each one uncloses Another year is made.

They grow in one great garden All patiently and slow And Time, the faithful warden, Attends them as they grow.

A petal for each day

To glow as it uncloses

And then be blown away.

The petals faint and wither,

The winds of winter run
To toss them there and hither,
And so the year is done.

And some are years to treasure.
And some to lose we're fain,
For some are sweet with pleasure
And some are thorned with pain.

But in the endless garden The roses bud and blow While Time, the faithful warden, Attends them, all arow

Speaking of the recent shameful action of officers in Cairo killing white men to defend a negro criminal the Sikeston Herald says:

But some day some girls or ladies from Kentucky, who happen to be in Cairo shopping or on business will be insulted, robbed or attempt made to assault them by the thick-lipped assassins of virtue. Then business will pick up good and strong. All the yells and threats of the negro loving officers to stop won't amount o anything. An army of 500 or 1, 000 men from the towns of Kentucky car Cairo will come into the City, sweeping death and desolation in their way, including the sheriff, his negro deruties and every militiaman who tries to protect the negroes. When hat time comes, which might occur any time, this army of home defendrs and champions of the virtue and purity of the white woman, will kill or attempt to kill every negro in Cairo or run them pell-mell into the river to meet death by drowning. This catastrophe can be averted by showing proper respect for the white race and placing them as the tenthousand degree superior people where they belong.
